THE NEXT GENERATION OF GATORTAIL MOTORS

FEATURES

Twist Grip Throttle (Optional)

—

Adjustable 3 Position Throttle Control for
Stand-up or Sit-down Operation

—

Integrated Hand Guard

—

Recessed Key and Kill Switch

—

High Efficiency and Air Flow
Transmission Cover

—

Easy Access Trim Switch on End
of Handle

MOTOR FEATURES

1. **993cc Big Block EFI 40HP Vanguard Marine Engine** – All Vanguard engines come with a 3 year warranty.
2. **Tachometer/Hour Meter** – Allows proper operation data and precise maintenance windows.
3. **4750RPM High Rev Coils** – Engine comes standard with a 4750 rpm limiter, protects against cover revving.
4. **20-50AMP Charging System** – Allows you to run all your favorite electronic accessories.
5. **Stainless Steel Muffler** – Extended protection in saltwater environments.
6. **F - N - R Toggle Switch** – No linkage to freeze or misaligns.
7. **Recessed Kill and Key Switch** – Flush with handle to prevent accidental engine kill.
8. **Waterproof Heavy Duty Trim Switch** – Durable, commercial strength switch for reliable and all weather and all condition operation.
9. **Metal Squeeze Grip or Twist Grip Throttle** – Weatherproof throttle ergonomically designed for comfortable and reliable operation and integrated into handle to prevent freezing.
10. **Integrated Free Floating Handle with Tension Adjustment** – Enhances safety and control standing up or sitting down.
11. **Smooth Ride Tiller** – Vibration Reducing bushing makes longer runs easy.
12. **5000 lb./ft. Power Trim Actuator** – Allows reliable trim performance in all conditions.
13. **Locking Tilt Pin** – Allows engine to be tilted out the water easily for maintenance, storage or while trolling in the shallows.
14. **2000 Hr. Electric Clutch** – Forward and Neutral gears provided smoothly and reliably by GatorTail electric clutch.
15. **Planetary Reverse Transmission** – GatorTail's exclusive design provides powerful and reliable reverse, rated up to 250 hp.
16. **Fully Adjustable Transom Clamp** – Allows each GatorTail engine to be custom mounted to individual hull for maximum performance.
17. **Dual Pivot Point Trim Impact System** – Allows engine to freely kick up on impact with no effect on trim unit.
18. **Polymer Bushings** – Allows engine to turn and rotate easily for safe and comfortable operation.
19. **Weedless Propeller** – Standard on all models.
20. **3 Piece Extruded Lower Unit** – Allows for easier maintenance.
21. **High Thrust Reverse Cavitation Plate** – Maximizes thrust for reverse power and keeps mud and water splash-backs to a minimum.
22. **Lifetime Belt Warranty** – GatorTail's belt driven technology is with you forever, we guarantee it. Break a belt, we'll give you another one... forever.
23. **Weed and Line Cutter** – Helps free heavy vegetation from propeller.
24. **Hand Guard** – Protection when driving in timber.
25. **Adjustable 3 Position Throttle Control** – Adjust for stand-up or sit-down operation.

GATORTAIL MOTORS

SETTING THE STANDARD

GatorTail, the original belt-driven surface drive engine, is the one that changed the game. From a research project in college, this technological marvel has grown to drive the market in a little over a decade. The next decade has begun with the evolution of our 37 and 25 EFI engines. These engines will prove to be the most reliable way to get you places you never thought possible.

BOATS

GatorTail invented, manufactured and perfected the best surface drive engine on the market today. The only logical next step was to design a line of boats that would allow our engines to deliver the full spectrum of performance we envisioned. That is why we now offer a complete line of boats specifically engineered to partner with our engines to deliver the perfect outdoor package that works for you.

PREDATOR SERIES

For this boat we combined the best elements of the Extreme Series and the Savage Series to produce a boat that is capable of running rivers and lakes as well as the marsh. It features a 24-inch side height, T-Lock gunnels, and a bottom that is designed for increased turning capabilities. It is available in stick steer, console, and tiller driven options.

MOD V SERIES

The Mod V Series from GatorTail Outboards is a shallow water boat with a V shaped front that makes it suitable for open water performance. The Mod V Series is a great boat to have when the seas pickup and you have to cross choppy water. It is a great fit for someone who plans to do a lot of fishing out of their boat.

SAVAGE SERIES

The Savage Series from GatorTail Outboards is a timber hunter's dream rig. This boat has been fashioned to slip through flooded trees and carry all the tools necessary to hunt ducks in the woods. It comes in standard deck and mid deck options.

REDFISH SERIES

The Redfish Series from GatorTail Outboards is the ultimate shallow water fishing boat. It comes rigged with all the tools necessary to target fish in shallow water. You can customize your Redfish Series with accessories and options to make it just right for you.

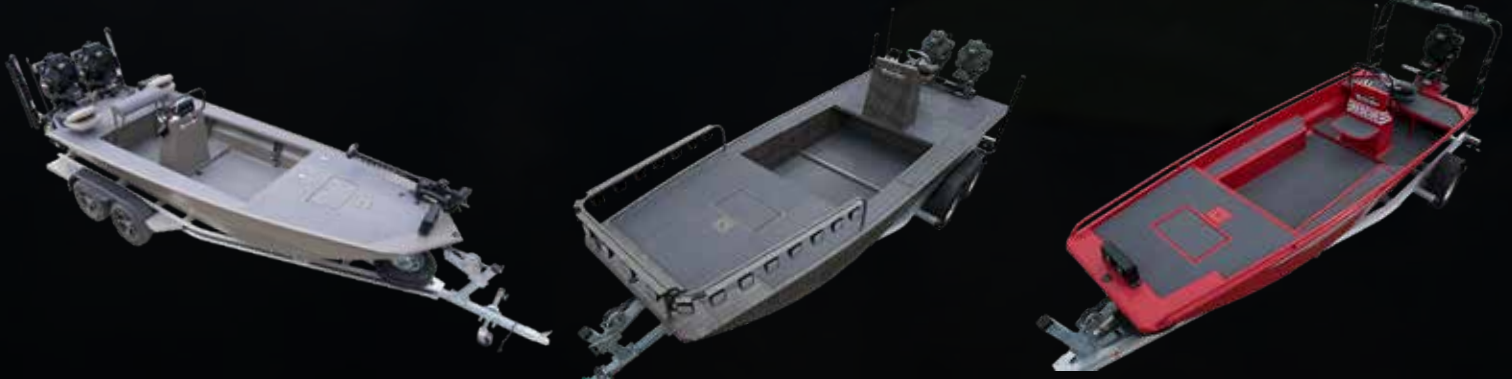

EXTREME SERIES

The Extreme Series from GatorTail Outboards is a shallow water boat with high end performance. The stepped chine design allows for superior sharp turn handling combined with a dry ride and maximum speed when you pair it with one of our motors. This is a great all around hunting and fishing boat.

GATOR SERIES

The Gator Series from GatorTail Outboards is a shallow water boat that is always ready for a hunting or fishing trip. This boat was designed with minimalist sensibility to create our most affordable boat option. Make no mistake however, the Gator Series is built to perform with speed and agility when paired with one of our motors.

XL SERIES

The XL Series from GatorTail Outboards is a shallow water boat with high end performance and load carrying ability. By utilizing dual motors, the XL Series can help you carry more weight and do it more efficiently. The stepped chine design allows for superior sharp turn handling combined with a dry ride and maximum speed when you pair it with two of our motors. This is a great all around hunting and fishing boat.

BOWFISH SERIES

The Bowfish Series from GatorTail Outboards comes rigged and ready for bow fishing action. Using LED lights that run on battery power, the Bowfish Series eliminates the need for generators. Light racks can be easily removed for other hunting and fishing activities. We offer the Bowfish Series in single and dual motor options. The hull itself is an Extreme Series outfitted for bowfishing.

ENFORCEMENT SERIES

The Enforcement Series from GatorTail Outboards is a shallow water boat that is suited for a special purpose to serve, protect, and rescue. Used by law enforcement, fire protection, wildlife agents, and rescue agencies across the United States, the Enforcement Series helps these organizations to access places that other boats simply cannot.

OUR STORY

ABOUT GATORTAIL

Based in Loreauville, Louisiana, GatorTail Outboards is the vision of Kyle Broussard. While finishing his degree in Mechanical Engineering at the University of Louisiana, the concept for GatorTail Outboards was born. This unique, patented design was the first of its kind to hit the market. GatorTail Outboards is in a class of it's own when it comes to on-site fabrication and production.

GatorTail can provide the highest quality products at very competitive prices. All design work is conducted by our highly skilled CAD/CAM engineering team. We operate a fully equipped CNC machine shop and employ highly skilled and talented personnel.

All of these factors make GatorTail Outboards the obvious choice when purchasing a shallow-water outboard for your work, sporting or pleasure needs.

WHAT MAKES US THE BEST?

OUR CUSTOMERS.

GatorTail gives each and every customer the total package from start, to finish, to follow-up. Our motors are CAD/CAM designed, CNC machined, assembled and wired by our team members who have years of marine experience. Once built, our motors are professionally prepped and painted to customer specs. GatorTail boats are built in our state of the art welding facility utilizing pulse welding technology. When the fabrication process is completed, our boats are rigged by our professional rigging team. Our service department is second to none in the industry and we stand behind every product we sell because that's what has brought us to the top.
